

Chapter Principles

Three principles underlie the formation and operation of Oxford House Chapters and explain why individual Houses group together to start Chapters:

*O*xford Houses share their experience, strength and hope with each other.

*T*he common welfare of Oxford House requires that all Oxford Houses follow the conditions of their charter.

*O*xford House Chapters foster the expansion of the number of Oxford Houses in order to provide safe, sober, supportive living environments for a greater number of individuals recovering from substance use disorder.
